

Executive QBR Summary Report

Jubilant Foodworks Ltd (JFL)

1 August 2026 – 31 August 2026

TOTAL INFRASTRUCTURE

444 Devices

8 Sites (148 Switches / 224 APs)

JFL SWITCH UPTIME %

94.43%

Target SLA: 99.3%

PROACTIVE SWITCH UPTIME %

99.96%

Net Resolution Deducted

INFRASTRUCTURE HEALTH SCORE

95.06/100

Excellent (88.51% Incident-Free)

Primary Executive Findings

PRIMARY RCA DRIVER (SWITCHES)

Device Power Issues

PRIMARY RCA DRIVER (APS)

Device Power Issues

Site Executive Performance Summary

1 August 2026 – 31 August 2026

Site-by-Site Device Uptime, Incident Totals & Primary Root Cause Analysis

Site Location	No of Devices	Proactive Switch Uptime	JFL Switch Uptime	Primary RCA Driver (Switches)	AP Incidents (Unique)	Primary RCA Driver (APs)
Bangalore	56	99.96%	99.23%	Device Power Issues / New Configuration	8 / 7	Hardware Degradation / Device Power Issues
Greater Noida	56	99.96%	99.28%	ISP Link Down / Client Side Activity	8 / 7	Cable Damage / ISP Link Down
Guwahati	55	99.96%	99.61%	ISP Link Down	8 / 7	Client Side Activity / Cable Damage
Hyderabad	55	99.96%	99.46%	Hardware Degradation / Device Power Issues	7 / 7	New Configuration
Mohali	56	99.96%	99.40%	Client Side Activity / Cable Damage	7 / 7	ISP Link Down
Mumbai-DC	55	99.96%	99.59%	Device Power Issues	8 / 7	New Configuration / Hardware Degradation
Nagpur	55	99.96%	99.53%	Cable Damage	8 / 7	ISP Link Down / Client Side Activity
Noida	56	99.96%	99.35%	New Configuration / Hardware Degradation	7 / 7	Device Power Issues

External Site Dependencies & Client-Side Activity

Note: Utility power cuts, store-side cabling activities, and third-party ISP outages are tracked transparently as local site dependencies and isolated from operational MSP SLA penalties.

Contractual SLA Compliance: 95.97% **Isolated External/Power Devices:** 67 **MSP Attributable Breaches:** 15

Switch Infrastructure & Rack Performance

1 August 2026 – 31 August 2026

Detailed Rack-wise Operational Uptime & Device Status

Rack-Wise Switch Summary

Site Location	Rack Location	Serial Number / Hostname	Period Uptime %	Operating Status
No rack switch data available.				

Access Point (AP) Analytics

1 August 2026 – 31 August 2026

Top Affected AP Devices & Incident Distribution

Top 10 Affected AP Outages

Device Hostname	Serial Number	Site Location	Incident Count	Effective Uptime %
No AP incidents recorded during period. Operations Stable.
